PRAISE FOR *HAUNTED*

...succeeds as a racy, interesting, graphic, cogent, un-put-down-able international action-thriller debut novel which is a delight to read

The plot itself is imaginative and complex, with international crime being meshed with local crime in a way that is quite believable - as far as the events go

Treating the book like a lurid thriller, the author goes for an audacious tone and a brisk pace, grabbing your attention from the very word go.

The description of the plot, the environment, characters and their emotions is done well. While you read, every word seeps in to your imagination and creates a vivid picturesque [sic] in your head.

Hitesh Ratnani, 21 November 2011

... an excellent action-packed book, and nowhere does it give the impression that it's the first published work of the author. Also, the perfect international setting of the plot makes it really hard to believe that the book comes from an Indian author!

It's almost impossible to believe that "Haunted" is the first published work of Douglas

Misquita, but it is the ultimate fact. The strength of the author lies in his strong imagination, rich vocab, enormous research, vivid description and powerfully visual writing.

Douglas Misquita has allowed his runaway imagination to take over in this action-packed international thriller. Non-stop explosive gun-battles, car chases, double-crossing thugs, and a full cast of dispensable characters carry the plot of this emotion-packed story to an unexpected surprise ending. Well-developed characters and stimulating dialog are additional elements in this compelling novel.

I am merely doffing my hat at Douglas' caliber as an action-thriller writer, the meticulous research, the erudite language, the taut narrative and the nearly impeccable editing, apart from the look and feel of the book of course. That reminds me... I got to buy one, a hat that is, if Douglas plans to keep writing thrillers like this.

Fast-paced and action-filled, never a dull moment here - almost like a movie script. The plot unfolds chapter-by-chapter making you wonder what's going to happen next. The style of writing makes you feel like you're right there - you'll probably want to duck to make sure you don't get hit by a stray bullet!

Newton Lewis, Media Professional, 18 June 2011

The plot flew beautifully through the book, keeping the reader gripped wondering what is going to happen next. A must read for those who enjoy Murder Mystery, Detective and Thriller genre.

8/10 stars. The almost black and white colour scheme on the cover clearly defines a theme that runs across the pages of Douglas Misquita's Haunted – the demarcation between good and evil.

Haunted by Douglas is one of the most refreshing reads of recent times... it is truly a book you would like to finish in one read as you can't put it down. The second thing is the action scenes are one of the best I have read; you can almost feel the blood rushing in your veins. I think those pages are torn at the edges as I flipped them so fast!

I think John Woo and all the other action directors have found their new script writer.

Akshay Menon, Brand Manager, 14 May 2011

Douglas pulls no punches, writes as he sees it, without patronizing or condescending and is intensely readable, imaginatively compelling about modern day international terrorism. Detailed and sensuously evocative, it has a minimum of sex and has as many surprises as Easter Bunnies. I think Douglas's writing style is a combination of Tom Clancy and Lee Child. Douglas twists and turns. This is a life-enhancing novel and a strumming debut.

Jude Gomes, writer and columnist, 16 March 2011

Very racy, enjoyable and different from other Indian authors. Managed to keep my interest up and the pages turning
